PROFILE

Detail-oriented software developer with a BSc in Software Development and hands-on experience building user-centred web applications, from MVP development at a digital-health start-up to live websites for clients. Skilled in full-stack web development, API integration and mobile-first design, with a CCNA networking background and strong customer-facing communication skills.

EXPERIENCE

Crew Member
Jul 2026 – Present
CCI Kenya · Nairobi

- Deliver customer care service, resolving customer inquiries promptly, accurately and professionally.
- Listen to customers to understand their needs and guide them to the right solution.
- Work with the team to meet service-quality standards and deliver a consistent customer experience.

Software Developer
Apr 2025 – Jul 2026
Medicarelib Africa

- Led product ideation and MVP development for a digital-health platform connecting patients with trusted healthcare providers.
- Collaborated with the founding team to gather and define product features.
- Handled DevOps and deployment of the application.
- Built a product demo used in fundraising pitches and stakeholder presentations.

IT Support Intern
Feb 2024 – Apr 2024
Miedema Africa Ltd

- Executed network performance optimisation and cable analysis to keep systems performing well.
- Developed the company website using HTML, CSS and JavaScript.
- Managed data entry in Microsoft Excel and kept confidential documents properly organised.
